Robert Guss

Application for Junior Web Developer

Dear ION Audio,

As a young and motivated junior web designer & developer I am extremely interested in submitting my application for the Junior Web Developer position at ION Audio. I have over 11+ years of experience working in the IT industry and some of my greatest assets are my problem-solving skills, the ability to learn quickly and perform well under pressure. I am also a graduate of Berklee College of Music where I graduated Magna cum Laude with a degree in composition, and have been a musician for over 15+ years.

As a junior developer, I am confident in my abilities in being effective and being able to contribute from day one. I also recognize that there are areas in which I need to grow and improve and I am eager to do so. I work incredibly hard and desire to be placed in an environment where I am challenged constantly.

I am available to start immediately and my salary is open to negotiation. With that said, I hope there are opportunities to grow and advance over time as I prove my value, professionalism, and expertise. I want to grow with a company for many years to come.

I would appreciate the opportunity to meet with you to discuss my application at an interview. I have enclosed a copy of my resume for your consideration. I can be contacted at all times on the details provided above.

Thanking you in advance for your time,

Robert J Guss
